To Whom It May Concern,

On behalf of the Italian Club Board and our Cemetery Committee, we are pleased to share with you that we recently completed construction on two new Niche Columbariums for cremated remains (see images at below). These two new structures are located inside the existing mausoleum, secured and protected from the elements, and are made of a beautiful white Carrera marble to match the existing mausoleum. Each niche is specifically labelled with a unique alpha-numeric identifier making it easier for your loved ones to located and pay their respects. There are over 250 new niches now available for immediate purchase. Some additional details on these niches:

- Each niche is made of a white Carrera marble to match our existing mausoleum
- Each niche will cost \$2,500, with the ability to hold to TWO (2) cremated remains
- The dimensions of each niche: 12" x 12" (interior), 12" x 13" (front plate).
- Each face plate has space to include a photo and engraving. Specifics on engraving will be included in the purchase agreement.

These niches have already proven very popular, with over 50 niches sold in the first few months of sales. If you would like to learn more about these niches, and the process for purchase, please contact [Mark@Italian-Club.org](mailto:Mark@Italian-Club.org) or (813)248-3316.
